## Web Developer

## About me

*As a passionate and driven web developer, I am seeking an opportunity that combines the best of both worlds: a **full-time** junior developer position where I can utilize my diverse technical skills, contribute to real-world projects, and gain valuable experience. I am eager to apply my knowledge and unleash my creativity in innovation, particularly in problem-solving and building responsive websites. Additionally, I am open to considering an **internship** position that allows me to further develop my skills and gain practical experience in the field of web development as a full-stack developer.*

## Education

Jan 2025 - Present
Erhvervsakademi | Aarhus
**Multimedia Design**

Oct 2022 - Jul 2023
Hack Your Future || Aarhus
**Full Stack Developer**

Jan 2021 - Jan 2022
Aarhus Universiy || Aarhus
**Adgangkursus Til Ingeniøruddannelser**

2018 - Dec 2020
Danske HF & VUC || Aarhus
**HF Enkeltfage**

## Experinces

*Hack-Your-future || Final-Project: CodeBulider*
*Developed innovative web app using Next.js, Typescript, React, and MongoDB. Enabled code snippet creation and sharing. Implemented GitHub authentication for seamless login and enhanced security.*

*Foreningen Dansk Socialarbejde : Mitjob.ai*
*In my role as a Frontend Developer at Dansk Socialarbejde, I am actively engaged in a project centered around the development of a cutting-edge job search platform based on AI. I have taken on the challenge of utilizing Next.js for this particular project. I contribute my skills in Next.js to design and implement responsive frontend components, ensuring an intuitive and seamless user experience for job seekers and employers.*

## Technical Skills and Proficiencies

- *Strong understanding of JavaScript fundamentals.*
- *Experience with React for building interactive user interfaces.*
- *Basic understanding of back-end technologies Node.js & Next.js*
- *Good knowledge of MongoDB and SQL database operations*
- *Enjoy working as a team member, as well as independently*
